- Please clearly label ALL items.
- Food is only to be consumed in designated dining areas. Please do not bring or eat food in cabins, tents, or activity areas.

Campsite Risk Assessment

Hazard Identification	Controls and Management	Assessment
Emergency Management	- Emergency procedures are reviewed with Lead Teacher and Emergency Information is in site folder. - Emergency procedures are explained to all participants during the introduction talk. - The Emergency Assembly Area is the Municipal Park across the road from CU@Wallaroo and identified with participants on day one of camp. - In the event of an emergency the group is checked against participant list at emergency assembly area.	Low
Slips, trips and falls	- Grounds and buildings are adequately maintained to reduce potential hazards. - There is adequate external lighting at night to walk between buildings. - Spills & breakages will be cleaned up and wiped or mopped up immediately. - Identify and remove any hazards/risks as soon as possible in consultation with Active Education Staff and Campsite Staff.	Low
Injury from being struck by vehicle while crossing road	- We recommend all vehicles are parked on the road. - John Terrace is a quiet road nevertheless strict boundaries provide clear direction that students are not to go to the park unless they are accompanied by Active Education staff and School Staff.	Medium
Injury during non-programmed time	- Active Education staff and School Staff provide students with clear details of areas for supervised free time upon arrival on Day 1 of camp. This includes the courtyard on the property and the municipal park across the road from CU@Wallaroo. - School Staff must always provide supervision during non-programmed time. - Area is to be checked for hazards before and during use. - Students are to be told they should not interact with members of the general public who may also be using the municipal park.	Low
Injury in dorms such as falling from top bunks	- Bunks built to comply with Australian design standards (4220-2010). - Children under six years must not use top bunks. Parents give written consent for 6-8 year-old children to sleep on top bunks. - Expectations for behaviour in dorms are explicitly outlined on Day 1 of camp. Students are not permitted to use dorms as a play space in free time.	Low

Campsite Risk Assessment cont.

Hazard Identification	Controls and Management	Assessment
Issues overnight such as an emergency situation, water or electricity supply, intruder on site etc	• Group Leader is shown emergency procedures by Active Education camp coordinator on Day One. • Emergency numbers and information are provided in folder. • Group Leader to contact Campsite Manager in the event of site issues with water, electricity, sewage etc. • School Staff oversee evening activities and supervision. • Catering staff will demonstrate to School Staff the safe procedures for providing supper. • First aid and medication is the primary responsibility of the Group Leader on camp. • School groups must have a vehicle available for emergency use. • The gates to the courtyard are locked at night. • Fire alarms are in every room with fire blankets in the kitchen and extinguishers located throughout the building.	Low
Pizza oven injuries such as burns	• Campsite Staff to maintain the pizza oven so that it is operating safely and efficiently • Safe Operating Procedure for using the pizza oven is followed including using the correct tools (long handled pizza peel) and PPE (oven mitts). • Active Education and School Staff to brief students on rules and behaviour during pizza oven activity. • Fire extinguisher is nearby and easily accessible.	Low

For the full Risk Assessment please contact Active Education at bookings@activeed.com.au

Emergency Management Plan

1. Provide immediate first aid assistance or care prescribed by an individual health support plan and/or isolate any person with an infectious disease.
2. Call 000 and advise emergency services of the closest vehicle entry point.
3. Ensure communication with emergency services is maintained and all relevant information is provided.
4. Send an employee or volunteer to the point where emergency services will enter the location, if it is safe to do so.
5. Collect the attendance list, individual health support plans, parent contact details and this plan.
6. Evacuate all people to the nominated emergency assembly point.
7. Once at the assembly point, check all people are accounted for.
8. Maintain a record of actions and decisions undertaken and timeline of events.
9. Report the emergency/evacuation to the site/service leader by using the agreed form of communication i.e. mobile phone.
10. Site/service leader must:
 - Notify Education Director
 - Report the incident using the department's incident and report management system.
11. Wait for emergency services to arrive or provide further information/instruction.
12. Site/service leader to contact parents.
